- Included subjects like rise of IOT devices, security vulnerabilities and ways of securing IOT Devices

PROFESSIONAL EXPERIENCE

Web Developer | Historical Society of Pennsylvania

March 2015 — September 2015 | Philadelphia, PA

- Led project management in the full-cycle development of HSP website. This included analyzing databases for research, communicating with HSP for product requirement writing, concept development, and creation of mobile website for HSP site
- · Collaborated with lead web developer to develop new customer features and workflows using JavaScript and PHP
- Relied on Google Analytics to create custom reports which were used to analyze and predict mobile web trends and presented findings to management on a weekly basis that eventually increased user traffic by 10%

Network Administrator | DSG Global Headquarters

March — September 2014 | Malvern, PA

- Improved network by performing network monitoring/analysis; performance tuning; troubleshooting network problems; and escalating problems to vendor which eventually increased network performance by 15%
- Performed network and desktop training workshops for staff that helped increase productivity of the company
- Helped to optimize the daily and weekly SQL backup process by automating parts of previously used backup processing

VOLUNTEER EXPERIENCE

Volunteer Intern | Open Learning Exchange Nepal

August 2010 — June 2011 | Kathmandu, Nepal

- Prepared new computers and servers for deployment in Nepal to help develop education for rural and underfunded schools
- · Assisted engineers by travelling to the rural schools and completed workshops for teachers and installed new hardware
